SUMMARY

Sr. Software Engineer with 15+ years building production **Python REST APIs**, multi-tenant web backends, and secure cloud services. Proven in healthcare — architected **HIPAA-compliant APIs** serving **500k+ user profiles** — and at enterprise scale on platforms processing millions of daily transactions. Self-starter who partners closely with product and data teams, enforces security and quality standards, and ships reliable APIs that power core product functionality.

CORE COMPETENCIES

Python & APIs: Django, Django REST Framework, FastAPI, Flask, RESTful API design, multi-tenant patterns, OAuth2/JWT, Pydantic, pytest

Backend & Scale: Microservices, event-driven architecture, PostgreSQL, Redis, schema design, query optimization, idempotent processing

Cloud & DevOps: AWS (ECS, Fargate, Lambda, RDS, S3, CloudWatch), Docker, Kubernetes, CI/CD (GitHub Actions), Secrets Manager

Security & Quality: HIPAA-compliant systems, encryption hardening, automated test coverage, code review standards, production monitoring

KEY IMPACT

- Architected secure **Python REST APIs** for **HIPAA-compliant healthcare platforms** serving **500k+ active user profiles** with OAuth2 authentication and encryption hardening.
- Built **Django REST Framework** services at Fidelity automating network provisioning — reduced setup from **4 hours to 10 minutes** with robust API contracts and automated pytest coverage.
- Deployed containerized Python microservices on **AWS ECS/Fargate** achieving API latency under **120ms** and **+45% throughput** for multi-tenant client workloads.
- Engineered event-driven pipelines processing **2.5M+ daily transactions** at **99.95% accuracy** across PostgreSQL, Redis, and external APIs.
- Maintained **99.99% uptime** on AWS-hosted enterprise backends at Disney processing **\$10M+ in daily financial metrics**.

PROFESSIONAL EXPERIENCE

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure **Python REST APIs** for **HIPAA-compliant** healthcare platforms serving **500k+ active user profiles**.
 - Designed multi-tenant relational schemas and PostgreSQL data models supporting patient-facing workflows at scale.
 - Implemented OAuth2, SSL/TLS, automated CI/CD pre-deploy scripts, and production environments at **99.9% availability**.
 - Collaborated with product and clinical stakeholders; led offshore engineering team as Scrum Master.
-

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Designed, developed, and deployed **Python APIs (FastAPI, Django)** on **AWS ECS/Fargate** for healthcare and e-commerce clients — sub-**120ms** latency, **+45% throughput**.
 - Built CI/CD pipelines with automated pytest suites, CloudWatch monitoring, and security-first deployment practices.
 - Partnered with product teams to translate requirements into scalable REST endpoints and durable data models.
-

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered Python backend modules for enterprise financial systems processing **\$10M+ in daily transaction metrics**.
 - Built high-performance **Python–PostgreSQL** interfaces ensuring **100% data integrity** during large-scale migration.
 - Maintained **99.99% uptime** on AWS-hosted services; co-architected automated costing system cutting reconciliation from 8 hours to 45 minutes.
-

Python API Developer

August 2013 – April 2014 | Fidelity Investments, Irving, TX

- Built **Django REST Framework** backend APIs for datacenter network automation — reduced provisioning from **4 hours to 10 minutes**.
 - Owned API contract design, serializers, permissions, and test coverage; mentored junior developers on best practices.
-

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Five years in **regulated healthcare** device verification — requirements-based testing, formal verification, and hospital network integration.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
