

Cary Jones

Sr. Python Developer | AI & Cloud Solutions

Temple City, CA 91780 (626) 272-2567 cgjonesdev@gmail.com linkedin.com/in/cary-g-jones github.com/cgjonesdev
cgjonesdev.github.io/carygjones

SUMMARY

Senior Python Developer with extensive experience in building and integrating **AI-driven applications** using **Python**, FastAPI, and other modern frameworks. Skilled in **API integration**, data management, and leveraging AI/ML libraries to enhance application functionality. Adept at collaborating with cross-functional teams to deliver scalable and efficient solutions.

CORE COMPETENCIES & TECHNICAL SKILLS

- Python & Frameworks:** Python, FastAPI, Django, Flask, asyncio
- AI/ML Libraries:** scikit-learn, Pandas, NumPy, API integration for AI models
- Data Management:** Data collection, preprocessing, and handling
- AI Concepts:** Machine learning, supervised/unsupervised learning, foundational algorithms
- Integration & Optimization:** AI functionalities integration, model performance optimization
- Version Control & Collaboration:** Git, Agile methodologies

ACCOMPLISHMENTS

- Enhanced engineering velocity by over **40%** through the integration of AI development tools and frameworks.
- Architected and deployed scalable Python microservices on AWS, improving system throughput by **45%**.
- Led cross-functional teams in refactoring legacy systems into resilient microservices, reducing API latency to under **120ms**.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed containerized Python microservices on AWS, enhancing system performance and reducing latency.
- Integrated AI models and vector search capabilities to automate data processes, significantly reducing manual data entry time.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Developed scalable backend modules for financial systems, processing over **\$10M+ in daily transactions**.
- Optimized cloud infrastructure to achieve **99.99% uptime** across critical applications.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant platforms, servicing over **500k active user profiles**.
- Configured production environments achieving **99.9% system availability**.

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Verified software for hospital infusion pumps, collaborating with engineers to resolve complex integration issues.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
