Sourav Paul

Diverse Lynx

Sunnyvale, CA

Re: Full Stack Developer (ReactJS + Python) Position

Dear Sourav Paul,

I am writing to express my interest in the Full Stack Developer (ReactJS + Python) position at Diverse Lynx, as advertised. With over 15 years of experience in software development, particularly in Python and full stack applications, I am excited about the opportunity to contribute to your team in Sunnyvale, CA.

Throughout my career, I have demonstrated my ability to design and maintain scalable applications with a focus on performance and security. My recent role as a Principal Software Engineering Consultant at CGJSoftware, Inc. involved architecting full stack solutions using Python and ReactJS, integrating CI/CD pipelines, and optimizing database performance with PostgreSQL. I am proficient in building and consuming REST APIs, and I prioritize writing clean, maintainable, and well-tested code.

While my resume highlights extensive experience with Python and PostgreSQL, I am eager to expand my expertise to include ReactJS and Oracle databases, which are critical to this role. I am confident that my strong engineering fundamentals and adaptability will allow me to quickly integrate into your existing tech stack and contribute effectively.

I am enthusiastic about the opportunity to collaborate closely with your team at Diverse Lynx, leveraging my skills to deliver high-quality solutions. Thank you for

considering my application. I look forward to the possibility of discussing how I can contribute to your projects.

Sincerely,
Cary Jones
