SUMMARY

Cloud/DevOps Engineer with over 15 years of experience in software engineering and cloud architecture. Expert in **CI/CD tools** such as GitHub Actions and GitLab CI, with hands-on experience in **Docker** and containerized workflows. Proficient in **Infrastructure as Code** using Terraform and CloudFormation, with production experience on major cloud platforms like **AWS** and **GCP**. Strong scripting skills in **Python** and **Bash**, with a proven track record in building and integrating APIs for platform connectivity.

CORE COMPETENCIES & TECHNICAL SKILLS

- CI/CD & Automation:** GitHub Actions, GitLab CI, Jenkins, Docker, containerized workflows
- Infrastructure as Code:** Terraform, CloudFormation, Ansible
- Cloud Platforms:** AWS, GCP, Azure (limited experience)
- Scripting & Development:** Python, Bash, API development and integration
- Observability & Monitoring:** ELK, Datadog, basic knowledge of Prometheus and Grafana
- Security & Compliance:** NIST 800-53, OAuth2, encryption, compliance in regulated environments

KEY ACHIEVEMENTS

- Implemented scalable CI/CD pipelines using GitHub Actions and Docker, reducing deployment time by **30%**.
- Architected Infrastructure as Code solutions with Terraform, enhancing infrastructure reliability and reducing manual errors.
- Developed and integrated APIs for seamless platform connectivity, improving system interoperability by **25%**.
- Managed cloud infrastructure on AWS and GCP, achieving **99.99% uptime** and optimizing resource utilization.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Design and implement CI/CD pipelines and cloud infrastructure using Terraform and Docker on AWS.
- Collaborate with cross-functional teams to integrate APIs and automate operational workflows.
- Optimize cloud resource utilization and ensure platform reliability and security compliance.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules and CI/CD pipelines for enterprise financial systems on AWS.
- Implemented Infrastructure as Code using CloudFormation, enhancing system scalability and reliability.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms, ensuring data privacy and security.
- Managed production environments and CI/CD pipelines, achieving 99.9% system availability.

Python Software Developer and System Architect

July 2019 – October 2021 | CGJSoftware, Inc. (Remote)

- Developed containerized applications and deployed to cloud platforms, improving deployment frequency by 3x.
 - Implemented asynchronous messaging architectures, ensuring zero data loss during peak loads.
-

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Verified and validated software for regulated medical devices, ensuring compliance and security standards.
- Collaborated with cross-functional teams to troubleshoot and resolve complex integration issues.

EDUCATION & CERTIFICATIONS

Associate of Science, Computer Electronics

2010 – 2013 | ITT Technical Institute, San Diego, CA

- Associate of Science Degree in Computer and Electronics Engineering Technology
 - GPA 3.67
-

Basic Military Combat Skills

September 1995 | Marine Corps Recruit Depot, San Diego, CA

- Graduated from Basic Training; promoted to Private First Class
