SUMMARY

Cloud Engineer with extensive experience in managing and optimizing **AWS and Azure cloud infrastructures**. Skilled in **data rehydration** and **disaster recovery** processes, and proficient in developing automation solutions using **Python** and **Bash scripting**. Proven track record in supporting **CI/CD pipelines** and managing **Kubernetes** operations, ensuring **operational excellence** and **system availability**.

CORE COMPETENCIES & TECHNICAL SKILLS

Cloud Infrastructure Management: AWS, Azure, Kubernetes, AKS, Virtual Machines, Networking Services

Automation & Scripting: Python, Bash, PowerShell, CI/CD (GitHub Actions, Jenkins)

Disaster Recovery & Data Rehydration: Data restoration processes, business continuity planning

Security & Access Management: Cloud security practices, access management

Monitoring & Observability: System monitoring, service-level objectives

KEY ACHIEVEMENTS

- Successfully managed cloud infrastructure across AWS and Azure, ensuring **99.99% uptime** and optimal performance.
- Developed automation scripts in Python and Bash, streamlining data rehydration workflows and reducing recovery times by **30%**.
- Implemented CI/CD pipelines using GitHub Actions, increasing deployment efficiency by **25%**.
- Led disaster recovery initiatives, enhancing business continuity and data integrity across cloud environments.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed containerized Python microservices on AWS and Azure, improving system throughput and reducing latency.
- Implemented cloud security and access management practices, ensuring compliance and data protection.
- Developed automation solutions for data rehydration and recovery, enhancing disaster recovery capabilities.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Managed backend cloud infrastructure, achieving **99.99% uptime** and optimizing resource allocation.
- Developed and maintained CI/CD pipelines, ensuring efficient deployment processes.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms, supporting over 500k profiles.
- Configured production environments and automated backup procedures, achieving **99.9% availability**.

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Verified and validated software for hospital infusion pumps, ensuring compliance with regulatory standards.
- Collaborated with firmware and hardware engineers to resolve complex integration issues.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
