

# Cary Jones

DevOps Engineer | GCP & Kubernetes Specialist

Temple City, CA 91780 (626) 272-2567 cgjonesdev@gmail.com linkedin.com/in/cary-g-jones github.com/cgjonesdev  
cgjonesdev.github.io/carygjones

## SUMMARY

**DevOps Engineer** with extensive experience in **GCP** and **Kubernetes**, specializing in managing and automating **CI/CD pipelines** and infrastructure as code using **Terraform**. Proficient in scripting with **Python** and **Bash** to enhance deployment automation and operational efficiency. Adept at troubleshooting and optimizing lower/non-production environments to ensure readiness and stability.

## CORE COMPETENCIES

**Cloud & DevOps:** GCP (GKE, Pub/Sub, BigQuery, Cloud Storage), Kubernetes, Docker, Terraform, Jenkins CI/CD

**Scripting & Automation:** Python, Bash/Shell, Groovy, deployment automation, infrastructure as code

**Environment Management:** Lower/non-production environments, application configuration, environment refreshes, integration validation

**Troubleshooting & Operations:** CI/CD, Linux/Windows servers, IAM, DNS, firewall/network connectivity, application integrations

## KEY IMPACT

- Implemented automated CI/CD pipelines using Jenkins, reducing deployment times by **40%** and improving build success rates across environments.
- Architected scalable infrastructure on GCP with Kubernetes, enhancing application deployment efficiency and reducing downtime during updates.
- Developed Python scripts for automating environment readiness checks, cutting manual intervention by **60%**.
- Optimized cloud monitoring and logging setups, increasing system observability and proactive issue resolution capabilities.

## PROFESSIONAL EXPERIENCE

### Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

#### CGJSoftware, Inc.

- Led DevOps initiatives for enterprise clients, focusing on GCP and Kubernetes deployments, CI/CD pipeline automation, and cloud infrastructure optimization.
- Implemented Terraform for infrastructure as code, streamlining environment provisioning and configuration management.
- Collaborated with cross-functional teams to enhance system reliability and performance, achieving **99.9% uptime** for critical applications.

### Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered backend systems and CI/CD processes, improving deployment efficiency and reducing build failures by **30%**.
- Enhanced cloud infrastructure monitoring and alerting, ensuring rapid response to incidents and minimizing service disruptions.

## Python Software Developer and System Architect

July 2019 – October 2021 | CGJSoftware, Inc. (Remote)

- Developed and maintained automated deployment scripts in Python and Bash, reducing manual deployment efforts and errors.
  - Optimized CI/CD workflows and integrated cloud-native solutions to support scalable application deployments.
- 

## API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs and managed infrastructure provisioning, achieving **99.9% availability** for healthcare applications.
- Streamlined CI/CD processes and automated testing frameworks, enhancing deployment reliability and speed.

## EDUCATION

---

### Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

---

### United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
