SUMMARY

Full Stack Engineer with over 15 years of experience in developing robust and scalable **cloud-based solutions** using **Python** and **React**. Expert in leveraging **AI tools** such as GitHub Copilot to enhance development processes. Skilled in **Docker**, **Google Cloud Platform**, and **Bash scripting**. Proven ability to collaborate with cross-functional teams and deliver high-quality software solutions in dynamic environments.

CORE COMPETENCIES & TECHNICAL SKILLS

- Full Stack Development:** Python (FastAPI, Django, Flask), React, Bash scripting, RESTful API design, microservices
- Cloud & DevOps:** Google Cloud Platform (GKE, Pub/Sub, GCS), Docker, Kubernetes, CI/CD, Git
- AI & Automation:** AI tools (GitHub Copilot), automated testing, data structures, functional and object-oriented programming
- Database Management:** MySQL, MongoDB, database optimization, query indexing
- Collaboration & Communication:** Agile/Scrum methodologies, peer reviews, cross-functional teamwork

ACCOMPLISHMENTS

- Developed and maintained scalable cloud-based solutions using Python and React, enhancing system performance and reliability.
- Integrated AI coding tools, resulting in a **35% increase in development efficiency** and improved code quality.
- Architected containerized applications on Google Cloud Platform, improving deployment frequency and system scalability.
- Collaborated with cross-functional teams to deliver high-quality software solutions, achieving **99.9% system uptime**.
- Optimized database queries and implemented automated testing, reducing processing times and increasing data accuracy.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed containerized Python microservices on Google Cloud Platform, enhancing system throughput and reducing latency.
- Implemented AI-augmented development practices, streamlining code review cycles and reducing bug resolution times.
- Delivered cloud modernization and advisory services for enterprise partners, focusing on healthcare and e-commerce domains.

Senior Software Engineer

May 2023 – July 2023 | CVS, Inc. (Remote)

- Decoupled legacy monolithic codebases and constructed containerized domain modules using Docker and Google Cloud Platform.
- Advised on Domain-Driven Design best practices, reducing inter-service dependencies and improving system modularity.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules for financial systems, processing over **\$10M+ in daily transactions**.
 - Optimized cloud infrastructure on AWS, achieving **99.99% uptime** for critical applications.
-

Python Software Developer and System Architect

July 2019 – October 2021 | CGJSoftware, Inc. (Remote)

- Containerized applications using Docker and deployed to Google Cloud Platform, improving deployment frequency by **3x**.
 - Designed asynchronous architectures utilizing Pub/Sub messaging, ensuring zero data loss during peak loads.
-

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python backend REST APIs for healthcare platforms, servicing over **500k active user profiles**.
 - Managed a cross-functional offshore development team, conducting PR reviews and establishing automated CI/CD scripts.
-

EDUCATION & CERTIFICATIONS

Jun 2012 – Aug 2013: Full-time student at ITT Technical Institute, completing Associate of Science degree requirements between professional roles at FileTrek, Inc. and Fidelity Investments.

Associate of Science, Computer Electronics

2010 – 2013 | ITT Technical Institute, San Diego, CA

- Associate of Science Degree in Computer and Electronics Engineering Technology
 - GPA 3.67
-

Basic Military Combat Skills

September 1995 | Marine Corps Recruit Depot, San Diego, CA

- Graduated from Basic Training; promoted to Private First Class
