Dear Hiring Manager,

I am writing to express my interest in the API Developer position in Pittsburgh, Pennsylvania. With over 15 years of experience in software development and a strong background in designing and building RESTful and GraphQL APIs, I am confident in my ability to contribute effectively to your team.

My expertise in Python and microservices architecture, combined with my experience in ensuring API security and scalability, aligns well with the requirements of this role. I have a proven track record of integrating internal and third-party services and optimizing API performance under high traffic conditions.

I am particularly drawn to this opportunity because of the emphasis on developing scalable and secure APIs. I am eager to bring my skills in cloud and DevOps practices, particularly with AWS and Docker, to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Cary Jones
