SUMMARY

Senior Full Stack Python Engineer with over 15 years of experience in designing and building end-to-end distributed software systems. Expert in **Python backend development**, RESTful API design, and full-stack application architecture. Proven track record in implementing scalable, resilient, and production-ready software solutions. Skilled in **microservices**, event-driven architecture, and cloud-native technologies such as **Docker** and **Kubernetes**. Adept at translating complex business requirements into robust software systems with a focus on **Azure-hosted** environments.

CORE COMPETENCIES & TECHNICAL SKILLS

Backend & Distributed Systems: Python (FastAPI, Django, Flask), REST API development, microservices, asynchronous processing, event-driven architecture

Front End & Integration: React, Node.js, Vue, JavaScript, UI/Integration layers

Cloud & Containerization: Docker, Kubernetes, Azure Kubernetes Service (AKS), CI/CD pipelines, cloud-native application deployment

Database & Data Engineering: SQL, Snowflake, PostgreSQL, MySQL, data workflows, distributed processing

System Design & Architecture: Full-stack system development, service decomposition, scalability, resiliency, fault isolation

Operational Engineering: Observability, monitoring, logging, alerting, production reliability

KEY IMPACT

- Architected and deployed containerized Python applications on **Azure Kubernetes Service (AKS)**, enhancing system scalability and reliability.
- Developed full-stack applications integrating **Python backend services** with **React** frontend, achieving seamless end-to-end functionality.
- Engineered **event-driven processing systems** using queues and workers, ensuring operational stability and fault tolerance.
- Built robust CI/CD pipelines and implemented comprehensive observability solutions, improving deployment frequency and system diagnosability.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Own backend services end-to-end — FastAPI/Django microservices on AWS ECS/Fargate with REST APIs, PostgreSQL, Redis, CI/CD, and production monitoring.
- Drive technical architecture for scalability and reliability; participate in design reviews and mentor engineers on testing and operational excellence.
- Collaborate cross-functionally with product stakeholders across healthcare and e-commerce; deliver high-impact features with clear ownership from inception to production.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms serving 500k+ profiles — scheduling, member data, and privacy-conscious access patterns.
 - Configured production Linux environments, SSL/TLS, automated backups, and CI/CD pre-deploy scripts achieving 99.9% availability.
-

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable Python backend modules and PostgreSQL interfaces on AWS for enterprise financial systems processing \$10M+ daily metrics.
 - Owned on-call for distributed backend services at 99.99% uptime; optimized queries cutting reconciliation from 8 hours to 45 minutes.
-

Python Software Developer and System Architect

July 2019 – October 2021 | CGJSoftware, Inc. (Remote)

- Containerized Python applications with Docker; deployed to GCP via gcloud CLI and AWS, improving deployment frequency 3x.
 - Built async messaging architectures (Pub/Sub, Boto3) preventing bottlenecks and ensuring zero data loss during peak loads.
-

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Regulated healthcare environment — requirements-based verification, audit documentation, hospital network integration, and security testing for infusion pump software.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
