Cover Letter for Principal Software Engineer - AI

Dear Hiring Manager,

I am writing to express my interest in the Principal Software Engineer - AI position at Convoso, as advertised. With over 15 years of experience in AI-driven solutions and cloud-based architectures, I am confident in my ability to contribute effectively to your team.

My expertise in designing and deploying scalable, robust, and secure systems using Python and microservices aligns well with the requirements of this role. I have a proven track record of integrating AI technologies and leading teams to deliver high-quality products. My experience as a Scrum Master has honed my leadership skills, enabling me to guide cross-functional teams effectively.

At CGJSoftware, Inc., I successfully architected and deployed containerized Python microservices on AWS and Docker, increasing system throughput by 45%. I also integrated LLMs and vector search capabilities, automating document classification and significantly reducing manual data entry time.

I am particularly drawn to this opportunity at Convoso because of your commitment to innovation in AI solutions. I am eager to bring my skills in AI and cloud architecture to your team and contribute to the development of cutting-edge solutions.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills align with the needs of your team.

Sincerely,

Cary Jones
