SUMMARY

Integration Engineer II with over 15 years of experience in designing and implementing **API microservices** and integration solutions. Skilled in **Python** development using frameworks such as **FastAPI**, **Django**, and Flask, with a strong background in **cloud platforms** like AWS and GCP. Proven track record in transforming engineering teams and modernizing technology platforms to drive business innovation and efficiency.

CORE COMPETENCIES & TECHNICAL SKILLS

Integration & API Development: RESTful API design, Python (FastAPI, Django, Flask), JavaScript, Azure, TypeScript, API security (OAuth2, JWT, API keys)

Cloud & DevOps Infrastructure: AWS, GCP, Azure basics, Docker, Kubernetes, CI/CD pipelines, cloud-native architecture

Enterprise Integration Tools: Experience with MuleSoft, Apigee, Kong, Workato, BizTalk

Architecture & Methodologies: System architecture design, integration patterns, Agile/Scrum, SDLC management

Data Engineering & Transformation: Data mapping, transformation, orchestration across heterogeneous systems

KEY ACHIEVEMENTS

- Designed and integrated **RESTful APIs** for seamless data exchange across multiple systems, improving data consistency and reliability.
- Led cross-functional teams in **cloud-native** architecture projects, enhancing system scalability and performance.
- Mentored junior developers, fostering a culture of continuous learning and improvement within engineering teams.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed containerized Python microservices (FastAPI, Django, Sanic) on AWS (ECS, Fargate) and Docker, increasing system throughput by **45%** and reducing API latency to under **120ms**.
- Integrated LLMs and vector search capabilities (OpenAI API, LangChain) into client data pipelines, automating document classification and cutting manual data entry time by **60%**.
- Delivered targeted legacy maintenance, cross-border software compliance reviews, and international cloud architecture strategies for remote enterprise clients.

Senior Software Engineer

May 2023 – July 2023 | CVS, Inc. (Remote)

- Analyzed and decoupled legacy monolithic codebases in preparation for domain-driven, microservices-oriented backend architecture.
 - Constructed containerized domain modules using Docker and Docker-Compose, improving localized integration testing speed by **50%**.
-

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules for core enterprise financial and reporting systems processing over **\$10M+ in daily transaction metrics**.
- Co-architected an automated accounting costing system, cutting end-of-month financial reconciliation processing times from **8 hours down to 45 minutes**.

EDUCATION & CERTIFICATIONS

Associate of Science, Computer Electronics

2010 – 2013 | ITT Technical Institute, San Diego, CA

- Associate of Science Degree in Computer and Electronics Engineering Technology
- GPA 3.67
