Cover Letter

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer Developer position at Millennium Space Systems. With over 15 years of experience in software engineering, specializing in Python and cloud architecture, I am excited about the opportunity to contribute to your team.

Throughout my career, I have successfully designed and implemented scalable microservices and API architectures, with a strong focus on performance and security. My experience in healthcare and regulated environments has honed my ability to deliver robust solutions that meet stringent compliance requirements.

At CGJSoftware, Inc., I led the development of containerized Python microservices on AWS, significantly enhancing system throughput and reducing latency. I am adept at integrating modern AI tools to streamline development processes and improve code quality, skills I am eager to bring to Millennium Space Systems.

I am particularly drawn to this role at Millennium Space Systems due to your commitment to innovation and excellence in aerospace technology. I am eager to leverage my technical expertise and collaborative spirit to support your mission and drive impactful results.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to the success of Millennium Space Systems.

Sincerely,

Cary Jones
