Sunil Vargans

Pyramid Technology Solutions, Inc.

9535 E 59th Street, Suite A

Indianapolis, IN 46216

Dear Sunil Vargans,

I am writing to express my interest in the Full Stack Backend Developer position at Pyramid Technology Solutions, Inc., as advertised. With a robust background in Python, API development, and cloud technologies, I am excited about the opportunity to contribute to your team in New York City.

In my current role as a Principal Software Engineering Consultant, I have successfully architected and deployed scalable Python microservices on AWS, enhancing system throughput and reducing latency. My experience with FastAPI and SQLAlchemy, combined with a proactive approach to learning new technologies, positions me well to adapt to Azure environments and AI integrations as required by the role.

My commitment to continuous improvement and collaboration has been demonstrated through my ability to integrate AI tools into development workflows, significantly increasing feature delivery speed and test coverage. I am eager to bring this expertise to Pyramid Technology Solutions and contribute to innovative solutions that meet client needs.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your team. Please feel free to contact me at your earliest convenience.

Sincerely,

Cary Jones
