SUMMARY

Full Stack Software Developer with over 15 years of experience in building scalable web applications and services using **Python, Django, and React**. Adept at designing technical solutions for complex systems, with a strong focus on enhancing team productivity and delivering high-quality software. Proven track record in collaborating with cross-functional teams to drive innovation and efficiency.

CORE COMPETENCIES & TECHNICAL SKILLS

Full Stack Development: Expert in Python, Django, Django Rest Framework, and React; proficient in developing intuitive user interfaces and robust backend services.

Database Management: Experience with relational databases (PostgreSQL, MySQL) and NoSQL databases (MongoDB).

Software Design & Architecture: Skilled in designing scalable solutions and conducting design reviews to ensure optimal performance and maintainability.

Collaboration & Communication: Excellent communication skills, with a history of effective collaboration with engineering teams and stakeholders.

Problem Solving & Analytical Skills: Strong analytical thinking with a focus on solving complex technical challenges efficiently.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed scalable Python microservices using Django and FastAPI, enhancing system performance and reducing latency.
- Collaborated with cross-functional teams to integrate React-based user interfaces, improving user experience and engagement.
- Implemented data solutions that increased data processing efficiency by 40%, leveraging both relational and NoSQL databases.
- Led design reviews and code reviews, ensuring adherence to best practices and high-quality code standards.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Developed and maintained backend services for financial systems using Django, handling over \$10M+ in daily transactions.
- Optimized data pipelines and database queries, reducing processing times and improving data accuracy.
- Collaborated with frontend teams to deliver seamless integration between backend services and user interfaces.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms, servicing over 500k active user profiles.
- Managed a cross-functional offshore development team as Scrum Master, conducting PR reviews and establishing automated CI/CD pre-deploy scripts.
- Configured production Linux environments, domain DNS (TXT, CNAME, MX), SSL/TLS security, and automated crontab backup procedures.

EDUCATION & CERTIFICATIONS

Jun 2012 – Aug 2013: Full-time student at ITT Technical Institute, completing Associate of Science degree requirements between professional roles at FileTrek, Inc. and Fidelity Investments.

Associate of Science, Computer Electronics

2010 – 2013 | ITT Technical Institute, San Diego, CA

- Associate of Science Degree in Computer and Electronics Engineering Technology
- GPA 3.67
