

Cary Jones

Principal Software Engineer | Cloud & AI Solutions

Temple City, CA 91780 (626) 272-2567 cgjonesdev@gmail.com linkedin.com/in/cary-g-jones github.com/cgjonesdev
cgjonesdev.github.io/carygjones

SUMMARY

Principal Software Engineer with over 15 years of experience in designing and implementing scalable software solutions. Expertise in **Python** and cloud technologies (**AWS, GCP**), with a proven track record of leading engineering teams to deliver high-quality, reliable software. Adept at collaborating with cross-functional teams to drive innovation and efficiency. Strong advocate for modern development practices, including microservices architecture and agile methodologies.

CORE COMPETENCIES & TECHNICAL SKILLS

Software Engineering Leadership: Team mentorship, Scrum Master, cross-functional collaboration, technical architecture reviews

Cloud & DevOps Infrastructure: AWS (EC2, ECS, Lambda), GCP, Docker, Kubernetes, CI/CD (GitHub Actions), Linux Administration

Languages & Frameworks: Python (FastAPI, Django, Flask), JavaScript, Go (Golang), SQL, HTML5, CSS3

Architecture & Methodologies: Microservices, RESTful API Design, Event-Driven Architecture, Agile/Scrum, Security Standards

ACCOMPLISHMENTS

- Led the design and development of scalable microservices architectures, improving system throughput by **45%** and reducing API latency to under **120ms**.
- Implemented cloud infrastructure solutions on AWS and GCP, achieving **99.99% uptime** and enhancing system reliability.
- Mentored engineering teams in adopting modern development tools and practices, resulting in a **35% increase in feature delivery speed**.
- Architected secure, HIPAA-compliant backend systems for healthcare platforms, ensuring **99.9% availability** and data integrity.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Lead the development of backend services using FastAPI/Django microservices on AWS ECS/Fargate, ensuring high performance and scalability.
- Collaborate with cross-functional teams to deliver innovative solutions, driving technical excellence and operational efficiency.
- Mentor engineers on best practices, testing, and operational excellence, fostering a culture of continuous improvement.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules for enterprise financial systems, processing over **\$10M+ in daily transaction metrics**.
- Optimized cloud infrastructure on AWS, achieving **99.99% uptime** and reducing reconciliation processing times from **8 hours to 45 minutes**.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms, servicing over **500k active user profiles**.
 - Configured production Linux environments and CI/CD pipelines, achieving **99.9% system availability**.
-

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Verified and validated software for hospital infusion pumps, ensuring compliance with regulatory standards and integration with hospital networks.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
