SUMMARY

Python Django Developer with over 10 years of experience in software engineering, specializing in **Python** and **Django** frameworks. Proven expertise in developing scalable, secure, and compliant cloud-based solutions. Adept at leveraging AWS environments and integrating security protocols to meet compliance standards. Strong background in microservices and API development, with a focus on delivering high-quality, efficient code.

CORE COMPETENCIES & TECHNICAL SKILLS

Languages & Frameworks: Python (Django, FastAPI, Flask), JavaScript, Go (Golang), SQL, HTML5, CSS3

Cloud & DevOps Infrastructure: AWS (EC2, ECS, Lambda, S3, RDS), Docker, Kubernetes, CI/CD (GitHub Actions, GitLab CI)

Security & Compliance: OAuth2, encryption, HIPAA compliance, cloud security best practices

Architecture & Methodologies: Microservices, RESTful API Design, Agile/Scrum, Git Version Control

ACCOMPLISHMENTS

- Developed and deployed Django-based applications on AWS, achieving **99.99% uptime** and ensuring scalability and security compliance.
- Led the integration of security protocols into cloud environments, enhancing compliance with industry standards.
- Architected microservices that improved system throughput by **45%** and reduced API latency to under **120ms**.
- Implemented CI/CD pipelines that increased deployment frequency by **3x** while maintaining robust testing and rollback capabilities.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Operated corporate entity facilitating high-level B2B engineering contracts, advisory services, and cloud modernization for enterprise partners.
- Architected containerized Python microservices on AWS, increasing system throughput by **45%** and reducing API latency to under **120ms**.
- Integrated security protocols into cloud environments, ensuring compliance with industry standards.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules for financial systems, processing over **\$10M+ in daily transactions**.
- Implemented security measures and compliance protocols to maintain **99.99% uptime** across critical applications.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python REST APIs for HIPAA-compliant healthcare platforms, servicing over **500k active user profiles**.
- Configured production environments and automated CI/CD processes to achieve **99.9% system availability**.

Jun 2012 – Aug 2013: Full-time student at ITT Technical Institute, completing Associate of Science degree requirements between professional roles at FileTrek, Inc. and Fidelity Investments.

Associate of Science, Computer Electronics

2010 – 2013 | ITT Technical Institute, San Diego, CA

- Associate of Science Degree in Computer and Electronics Engineering Technology
- GPA 3.67

Basic Military Combat Skills

September 1995 | Marine Corps Recruit Depot, San Diego, CA

- Graduated from Basic Training; promoted to Private First Class
