

Cary Jones

DevOps Engineer | AI & Cloud Automation

Temple City, CA 91780 (626) 272-2567 cgjonesdev@gmail.com linkedin.com/in/cary-g-jones github.com/cgjonesdev
cgjonesdev.github.io/carygjones

SUMMARY

DevOps Engineer with over 15 years of experience in designing and implementing **CI/CD pipelines**, infrastructure automation, and **cloud-native solutions**. Expert in leveraging AI-assisted development tools like **GitHub Copilot** and **Cursor** to enhance software engineering productivity and operational efficiency. Proven track record in integrating development platforms with tools such as **GitHub** and **Jira**, and optimizing application performance in compliance with security and governance standards.

CORE COMPETENCIES & TECHNICAL SKILLS

DevOps & Automation: CI/CD pipeline design, infrastructure automation, cloud-native solutions, Docker, Kubernetes, AWS, GCP

AI-Assisted Development: GitHub Copilot, Cursor, AI orchestration frameworks, agentic workflows

Programming & Scripting: Python, Bash, Zsh, JavaScript

Integration & Performance: GitHub, Jira, ServiceNow, Datadog, Splunk, application monitoring and optimization

Security & Compliance: Enterprise security, compliance, governance, risk management, OAuth2, encryption

ACCOMPLISHMENTS

- Designed and implemented **CI/CD pipelines** and infrastructure automation, enhancing deployment efficiency and reliability.
- Integrated AI-assisted development tools, boosting engineering productivity by **40%** and reducing bug resolution times.
- Developed AI-enabled workflows that improved software quality and operational efficiency across multiple projects.
- Configured and optimized application performance, ensuring compliance with security and governance standards.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Architected and deployed containerized Python microservices on AWS, increasing system throughput by **45%** and reducing API latency.
- Integrated AI tools into client data pipelines, automating document classification and cutting manual data entry time by **60%**.
- Implemented CI/CD pipelines and infrastructure automation, enhancing deployment frequency and reliability.

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable backend modules for enterprise financial systems, processing over **\$10M+ in daily transaction metrics**.
- Optimized cloud infrastructure on AWS, achieving **99.99% uptime** across critical reporting web applications.
- Created high-performance Python database interfaces ensuring **100% data integrity** during system migration.

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure Python backend REST APIs for HIPAA-compliant healthcare platforms, servicing over **500k active user profiles**.
- Configured production Linux environments, SSL/TLS security, and automated CI/CD pre-deploy scripts achieving **99.9% system availability**.

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
