Dear Michael Gonzales,

I am writing to express my enthusiasm for the Senior Software Developer position at USTech Solutions. With over 15 years of experience in Python backend development, cloud platforms (AWS/GCP), and SQL, I am confident in my ability to contribute effectively to your team.

Throughout my career, I have successfully modernized legacy systems, optimized cloud infrastructure, and integrated AI-augmented development practices to enhance engineering workflows. My background aligns well with the technical requirements of the role, and I am eager to bring my expertise in backend development and cloud solutions to NextEra Energy.

I am particularly drawn to this opportunity because of USTech Solutions' commitment to innovation within the energy sector. I am excited about the prospect of contributing to projects that drive efficiency and sustainability.

Thank you for considering my application. I look forward to discussing how my skills and experiences align with the needs of your team during our upcoming conversation.

Best regards,

Cary Jones
