SUMMARY

Senior Backend Engineer with 15+ years designing and operating scalable **REST APIs** and distributed backend services in **healthcare-adjacent, regulated environments**. Proven in HIPAA-compliant platforms, production ownership (design through on-call), and cross-functional delivery with product and frontend teams. Deep **Python** backend experience on **AWS and GCP**; comfortable ramping on **Golang** microservices where architecture and reliability matter most. Pragmatic about observability, SLIs/SLOs, and long-term system health.

CORE COMPETENCIES

Backend & APIs: Python (FastAPI, Django, Flask), RESTful API design, microservices, Go (Golang), asyncio, pytest, system design reviews

Distributed Systems: Event-driven architecture, Redis, PostgreSQL, inter-service messaging (Pub/Sub, async queues), idempotent processing, Kafka-adjacent patterns

Cloud & Reliability: AWS (ECS, Fargate, Lambda, RDS), GCP (gcloud, container deploys), Docker, Kubernetes basics, CI/CD, monitoring/alerting, on-call incident response

Healthcare & Compliance: HIPAA-compliant API development, regulated medical device verification (Hospira), audit-friendly access, OAuth2, encryption

KEY IMPACT

- Built **event-driven Python pipelines** on AWS handling **2.5M+ daily transactions** at **99.95% accuracy** with monitoring, documentation, and automated test coverage.
- Architected **HIPAA-compliant REST APIs** serving **500k+ active healthcare user profiles** with privacy guardrails and **99.9% availability**.
- Maintained **99.99% uptime** on production backends; owned services from architecture through on-call escalation and post-incident follow-up.
- Deployed containerized Python services to **GCP and AWS**, improving release frequency **3x** while preserving observability and rollback safety.
- Five years in **regulated healthcare** at Hospira — formal verification, audit trails, and security-conscious hospital network integration.

PROFESSIONAL EXPERIENCE

Principal Software Engineering Consultant / Technical Lead

Jan 2023 – Present | Los Angeles, CA / Remote

CGJSoftware, Inc.

- Own **backend services end-to-end** — FastAPI/Django microservices on AWS ECS/Fargate with REST APIs, PostgreSQL, Redis, CI/CD, and production monitoring.
 - Drive technical architecture for scalability and reliability; participate in design reviews and mentor engineers on testing and operational excellence.
 - Collaborate cross-functionally with product stakeholders across healthcare and e-commerce; deliver high-impact features with clear ownership from inception to production.
-

API Developer, System Architect, DevOps Engineer, and Scrum Master

January 2018 – July 2019 | Alan Health & Science Corp. (Remote)

- Architected secure **Python REST APIs** for **HIPAA-compliant** healthcare platforms serving **500k+ profiles** — scheduling, member data, and privacy-conscious access patterns.
 - Configured production Linux environments, SSL/TLS, automated backups, and CI/CD pre-deploy scripts achieving **99.9% availability**.
-

Senior Software Engineer

October 2021 – November 2022 | Disney Corporation, Inc. (Remote)

- Engineered scalable Python backend modules and PostgreSQL interfaces on AWS for enterprise financial systems processing **\$10M+ daily metrics**.
 - Owned on-call for distributed backend services at **99.99% uptime**; optimized queries cutting reconciliation from **8 hours to 45 minutes**.
-

Python Software Developer and System Architect

July 2019 – October 2021 | CGJSoftware, Inc. (Remote)

- Containerized Python applications with Docker; deployed to **GCP** via gcloud CLI and AWS, improving deployment frequency **3x**.
 - Built async messaging architectures (Pub/Sub, Boto3) preventing bottlenecks and ensuring **zero data loss** during peak loads.
-

Quality Assurance & Network Integration Engineer

February 2005 – December 2009 | Hospira, Inc., San Diego, CA

- Regulated healthcare environment — requirements-based verification, audit documentation, hospital network integration, and security testing for infusion pump software.
-

EDUCATION

Associate of Science, Computer Electronics

ITT Technical Institute — GPA 3.67

United States Marine Corps

Field Wireman & Communications Specialist — Honorably Discharged
