

NextEra Screening — Cram Sheet

Wed Aug 12 · 9:00 AM PST · Michael · AI SWE (contract/US Tech) · 7–1 Pacific = 9–3 CST

Pitch: Backend/cloud/SQL/legacy first — AI is bonus. Regulated enterprise (Disney, HIPAA) = energy-adjacent reliability.

60-SEC INTRO

- 15+ yrs · Python · PostgreSQL · AWS/GCP
- Disney \$10M+/day · 99.99% uptime
- CVS monolith → microservices
- Fidelity DRF 4h→10m
- AI: Cursor, LLM docs — practical

STORIES READY

- **Disney:** PG + AWS + finance stakeholders
- **CVS:** DDD · Docker tests · monolith
- **SQL:** batch 8h → 45m

ASK MICHAEL

- Team + first problem? · Stack + legacy scope? · AI in prod today? · 90-day success? · Next rounds?

TECH ONE-LINERS

Monolith	Strangler · domain boundaries
SQL	EXPLAIN · indexes · aggregation
AWS	ECS Fargate · CloudWatch

WHY NEXTERA

- Critical infra · long-lived systems
- Cloud + legacy modernization fit
- Impact > AI buzzwords

GAP PIVOTS

- No utilities → regulated + uptime
- Rate → via Riyaz ~\$74–75/hr tgt
- Start ~2 weeks

BEFORE CALL

- 8:55 AM · resume.pdf open
- Notepad · quiet · mic check
